Blue Bell, PA 19422

The City of Easton, PA is a historic district that is proud of their diverse and architecturally rich neighborhoods. In 2011 the parking garage was coated with Strongcote SC-113 heavy duty traffic membrane system to enhance it's appearance and durability. The system is breathable, has zero voc and is odorless. It is ideal for interior parking enclosures and garages that are in close proximity to the general public.
